MASONRY AND METHODISM.

At the annual Conference of Methodist ministers, held in the county, and which adjourned on the 25th of May, 1814, the following resolutions were adopted, calibrated to a fault essential in the formal method of Masonry:

"We, the brethren assembled at the annual Conference, being fully convinced of the importance and necessity of our advertising patronage, are determined to pursue, and if necessary, to follow up the wake of its loss, and to bring into fair and effective action, all honorable means to correspond with the Central County Committee of Safety, and with but little capital, are dependant on them to arrest."

COMMITTEES OF SAFETY.

"The instrument is a very powerful one. The anti-masonic State Convention for Penn-..."
FOREIGN.
From Europe.—We have received by the last post from the Continent a letter from Baron Kell, bearing date June 12th, from Paris, which contains the most interesting intelligence. The Emperor Napoleon is much better, and his condition has been very improved. The French Government has declared war on the United States, and the troops are being collected at the various stations in the north of France. The Emperor has issued a proclamation declaring war on the United States, and calling for a million men. The American Embassy at Paris has been summoned, and the American Minister has been instructed to inform the American people of the situation. The French Government has declared that the United States is an enemy, and that all persons of American birth or descent within the French territories shall be considered as enemies of the State. The American Embassy has been closed, and all American citizens are advised to depart immediately for safety. The French Government has declared that all American commerce with the United States shall be prohibited, and all American ships and vessels shall be seized and taken into French ports.

NEW STORE.
SAMUEL T. HORTON & CO.
In the 307-309 BROAD STREET.
Carriage Labels, A. C. & C.
